AIMS AND OBJECTIVES

The Counselling Ministry of The Church of Pentecost has been established to provide Christian counselling to members and the general public who may be facing various life challenges.

ONE-TO-ONE SUPPORT

One-to-one counselling sessions are provided to identify, empower and support those who need advice and support, to ensure those going through difficult times can take control and stand firm. As well as helping you overcome and find solutions to difficulties, we will keep track of your progress and help you prevent new problems from developing.
